Approved: June 11, 2002

Amended: March 4, 2008, September 1, 2009, December 7, 2011, June 29, 2015, September 24, 2015

The governing board recognizes its responsibility for the education of all students in the school. The board authorizes the President to establish independent study as an optional alternative instructional strategy by which all enrolled students may achieve curriculum objectives and fulfill graduation requirements in a setting other than the regular classroom.

The primary purpose for independent study is to offer a means of individualizing the educational plan for students whose needs may be best met through study outside the regular classroom setting. Independent study may be used by all students who are motivated to achieve educationally as well as or better than they would in the regular classroom.

1. No student shall be required to participate in independent study. All students shall have the alternative of classroom instruction.
2. No course required for high school graduation shall be offered exclusively through independent study.
3. No individual with exceptional needs as defined in *Education Code* Section 56026 may participate in independent study unless his or her individualized education program (IEP) specifically provides for that participation.
4. No temporarily disabled student may receive individual instruction pursuant to *Education Code* Section 48206.3 through independent study. However, if the temporarily disabled student's parent or guardian and the district(s) agree, the student may receive instruction through independent study instead of receiving the "home and hospital" instruction provided pursuant to *Education Code* Section 48206.3.
5. Audeo Charter School shall provide appropriate existing services and resources to enable students to complete their independent study successfully and shall ensure that the independent study student has the same access to all existing services and resources in the school in which the student is enrolled as are available to all other students in the school. As part of the school's individualized instructional process, students with Individualized Service Plans (ISP/504 plans) shall receive instruction appropriate to their needs.
6. Students must make the major commitment and must be assisted or supported, as necessary, by parents and others who may help directly with instruction.

Written Agreement and Contracts

1. The President or designee shall ensure that the school executes a written independent study agreement with each participating student as prescribed by law. Assignments will be consistent with the school's adopted course of study.
2. For students grades K through 12 in independent study at Audeo Charter School the maximum length of time that may elapse between when an assignment is made and when that assignment is due shall be one month or 20 school days. When special or extenuating

circumstances justify a longer time for individual students, the President or designee may approve a period not to exceed eighteen weeks.

3. When any student in grades K-5 fails to complete 4 or more days of assigned work during a 20 day learning period, or misses two appointments without valid reason, the President. When any student grades K through 12 fails to complete two independent study courses during any period of 40 schools days, or misses two appointments without valid reasons, the President or designee shall conduct an evaluation to determine whether the pupil or student should be allowed to continue in independent study. A written record of the findings of any evaluation conducted pursuant to this policy shall be maintained in the student's permanent record as part of the personalized education plan.
4. The President or designee shall report to Audeo Charter School Board the number of students in charter independent study by typical categories of study and duration; the ADA generated; a description of the students' performance on those indicators of quality which the board may specify; and the number and proportion of students, by typical categories, who graduate or successfully complete their studies.
5. The President or designee shall establish regulations to implement this policy in accordance with the law.
6. Audeo Charter School will not provide any funds or other thing of value to the pupil or his or her parent or guardian that a school district could not legally provide to a similar situated pupil of the school district, or to his or her parent or guardian.
